## **Notes**

- 1) The section headings and descriptions above are for general guidance only.
- 2) The bridal procession will take no more than 60 seconds to walk up the aisle, hence the piece selected may only contain the principal theme (e.g. Pachelbel's Canon).
- 3) Most couples simply just chose the processional and recessional music, leaving the remainder to the organist's discretion, though if there's anything specific from the list you'd like played then do let us know.
